cooperation across borders requires both knowledge of and understanding of different cultures this is especially true when it comes to the law this handbook is the first to comprehensively present selected legal cultures based on a very specific set of structural elements which can be found in all such cultures legal cultures are a product of and impacted by certain fundamental and commonly shared ideas on and expectations of the law in all modern societies these ideas are to a certain degree institutionalized or at least embedded in institutionalized practices these practices determine the way lawyers are educated and apply the law how they engage with the ongoing internationalization of law and what kind of values they adhere to looking at these elements separately enables the reader to identify similarities and

differences and to explain them contextually understanding these general features of legal cultures can help avoid misunderstandings or misinterpretations of foreign law and its application accordingly this handbook is a necessary starting point for all kinds of legal comparative studies conducted by academics students judges and other legal practitioners

international organizations are becoming increasingly powerful today they affect the lives of individuals across the globe through their decisions and conduct consequently international organizations are more capable of violating the human rights of individuals but how can they be held to account for such violations this book studies the procedural mechanisms that may hold international organizations to account for their human rights violations it establishes a general framework for identifying analyzing and assessing the accountability mechanisms of international organizations this general framework is then applied to three distinct cases the eu s common security and defence policy missions refugee camp administration by the unhcr and detention by the international criminal court the overall conclusion is that none of the existing accountability mechanisms across the three cases fulfill the normative requirements set out in the general framework however there are significant variations between cases and between different types of accountability mechanisms

the nordic states were among the first in the world to enact general gender equality and anti discrimination laws with low threshold enforcement mechanisms today the nordic countries top the world economic forum s gender gap index but they have still not succeeded in closing the gender gap this book draws a diverse and complex picture of the long uneven and unfinished process towards substantive equality in four nordic countries sweden finland norway and iceland it presents the nordic gender equality model s systematic use of three measures overarching gender policies legislation that has an explicit or implicit impact on gender relations and gender equality and anti discrimination laws with low threshold enforcement systems what potentials and limitations do the nordic gender equality and anti discrimination law regimes have to combat individual discrimination and structural inequality can these regimes function as a driver of political legal economic cultural and social change and as a corrective to laws policies and practices that uphold existing inequalities and if so to what extent can weaknesses in the equality and anti discrimination laws and the way they are enforced hamper efforts to close remaining gender gaps rather than looking at the nordic gender equality laws and policies in isolation the book situates their development and transformative potential within a changing european and international political and legal landscape

includes entries for maps and atlases

the first chapters deal with the technicality of firewalls and filters on public international computer networks anti

copyright infringement, efficiency of filters the second part deals with public international law on jurisdiction to prescribe, adjudicate and enforce and public international computer networks further it mentions related court decisions
